

AB0120
Bana™ Tents
On Water & Land BT120

Bana Tents provide amazing shade and are typically about 30 degrees cooler underneath. All AquaBanas tents are designed to effortlessly fit any of the AquaBanas decks, and are also great by themselves on the beach for shade. Each tent leg has an extra layer of material on the foot pad for abrasion protection. The exterior height of this tent is 7 ft 6 in (226cm) from any deck at the highest point. The bottom arch is 48" (120cm) from the bottom of the tube to the top of the deck, but quickly opens up to over 6.5 ft inside.

- PVC hot air welded construction vs glued for best in class durability.
- #316 marine grade stainless steel D-Rings
- Removable 0.6mm PVC tent top with hook n loop
- Internal center loop for light or speaker
- Dual inflation valves
- Pressure relief valve to prevent accidental over-inflation.
