

AB0900 Transition Bana™ 250

The Transition Bana 250 is designed to interconnect AquaBanas products and offers a slight push-off when connecting Banas directly to docks or boat transoms. The drop stitch construction along with 2 ballast bags make a super stable platform that measures 132" x 96" (340cm x 250cm). The Transition Bana 250 has fittings on both long edges to seamlessly make the connection with a series of D-Rings on the top and bottom to allow secure connections to most major inflatable systems.

- BanaGrip™ non-slip surface
- Ballast bags for unrivaled stability
- Drop stitch construction to maintain item shape and provide stability
- Hot air welded construction vs glued for best in class durability
- Anchoring and mooring points underneath
- Standardized connections offers unlimited modularity and customization

Specifications

SKU	DESCRIPTION	INFLATED	STORED	WEIGHT
AB0900	Transition Bana - 250	132" x 96" x 28" 340 x 250 x 70cm	30" x 22" x 15" 76 x 56 x 39cm	95 lbs 43 kgs

Notes

The Transition Bana 250 is a perfect additional to a Party Bana to give added space to the connection area if using against a transom, swim platform or dock. Includes: storage wrap and repair kit.
